MaxiVideo™ MV201

MaxiVideo™ MV201

This premier Autel Digital Inspection Videoscope MaxiVideo™ MV201 is an ideal tool for examining difficult-to-reach areas normally hidden from sight. It features the ability to record digital still images and MPEG2 or MPEG1 video either on its internal flash memory or on the removable SD cards. The ergonomic tool not only features a 3.5" full color LCD screen, auto focus and viewing capacity as close as 3/8" with crystal clear output, but also offers the capability to stream digital video directly to a PC. The Multipurpose Videoscope is an economical solution to inspect machinery, facilities and infrastructure in the safest, quickest and most cost-effective manner possible.

- Records and plays back still images and video clips
- 3.5" high resolution full color LCD display (320x240)
- Easy-to-use, multi-language interface
- With removable SD cards, saves images and videos to take with anywhere
- 2x digital zoom for increased viewing
- Mini USB connector for uploading images and videos to a computer
- Narrow probe diameter available in either 8.5mm(0.33") or 5.5mm(0.22") and fits most spark plug holes
- Built-in rechargeable Li-ion battery with up to 5 hours of continuous use
- Audio input jack for recording comments with optional ear bud & microphone attachment
- Can operate the tool while charging the battery
- Composite video output jack (RCA)
- One-year limited warranty

MaxiVideo™ MV101
